

Tested Win 10 , 64bit– Multiple browsers (07/04/18)

Browser/Device	Error	Fix (Date)
All	There's an ability to play various files at once – need a script to prevent this	Found fix with Nathan Long script on Stack Overflow
	Need to fix audio players alignment– looks messy	complete with device size styling and flexbox
	Routing refresh issue	(back end issue) with server – will fix in back end learning
Google Chrome (version 65.0)	No specific browser issues	N/A
Opera (version 52.0)	No specific browser issues	N/A
Firefox (version 59.0)	Workout/About Me / 404 - Internal button links do not work on	Fixed=07/04/2018 (button is link instead of sentence)
	Styling – workout – not overly important - Video/audio – player defaults to grey	Classed – not that important - does not affect functionality – left as is
IE 11	! 1 serious issue =Workout Video does not work	(attempt use mpeg4) - works now (iphone/ipad mp4 format)
	Issue navigation - Styling of audio	Resizing element of table holding audio players
	Workout/About Me / 404 Internal button links do not work on	Fixed=07/04/2018 (button is link instead of sentence)
Edge	serious issue =Workout - - Video does not work	Fixed=07/08/2018 – converted mpeg 4
Mobile (Android)	Contact me - Calendar off page	fixed 07/04/18 -styling issue required padding each side - sorted
	Styling – not overly important - Title can be use a bit of left-padding	Updated title padding
Mobile ( iphone)	Contact me - Calendar off page	fixed 07/04/18 -styling issue required padding each side
	Serious issue = Video -No sound	Fixed – with iphone compatible video
	Serious issue =audio - No sound	(attempt convert acc audio) - Fixed=07/04/2018
